Our 17 year history assures best practice in privacy, security and the ethical use of data

We all have a responsibility to use data for good

Privacy

- We have built our business based on privacy by design principles for the past 17 years
- Quantum has strict protocols around the receipt and storage of personal information
- All information is de-identified using an irreversible tokenisation process with no ability to re-identify individuals.

Security

- We are ISO27001 certified - internationally recognised for our ability to uphold best practice standards across information security
- We use 'bank grade' security to store and process our data
- Comply with 200+ security requirements from NAB, Woolworths and other data partners
- All partner data is held in separate restricted environments
- All access to partner data is limited to essential staff only
- Security environment and processes regularly audited by our data partners.

Ethical use of data

Applies to all facets of our work, from the initiatives we take on, the information we use and how our solutions impact individuals, organisations and society.

Quantum believes in using data for progress, with great care and responsibility. As such please respect the commercial in confidence nature of this document.

Executive summary

01

Task 1 :- Customer & Product Insights

Key Findings

- Older Families and Young Families generated the highest chip sales across all customer segments.
- Mainstream Young Singles/Couples were the highest-spending customer segment.
- Kettle, Smiths, and Doritos were the top-performing chip brands.
- The 175g and 150g pack sizes contributed the largest share of category sales

02

Task 2 – Trial Store Evaluation

Key Findings

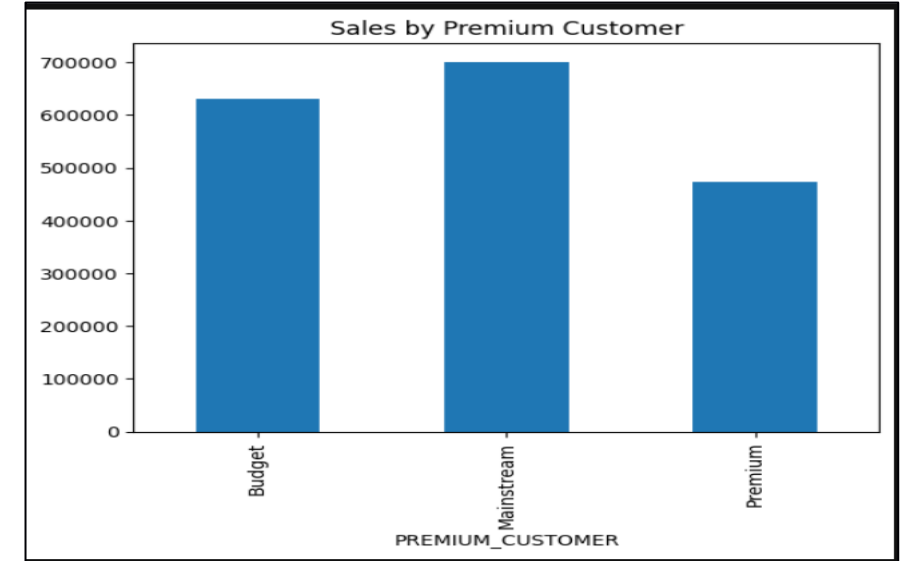

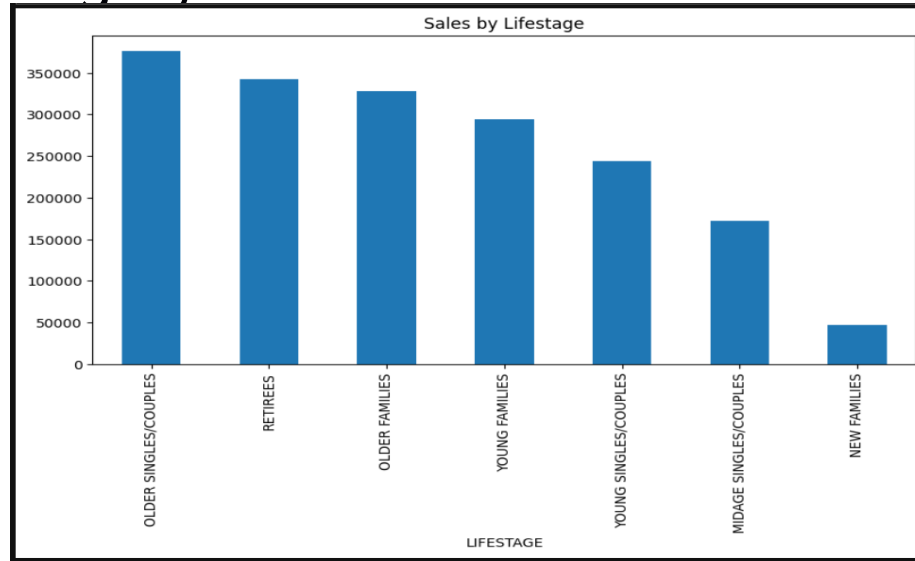

- Trial Store 77 showed improved sales performance during the trial period.
- Trial Store 86 also demonstrated positive sales growth compared with its control store.
- Store 88 showed comparatively weaker improvement than the other trial stores.
- Overall, the trial layout appears promising and should continue to be monitored before a wider rollout.

01

Category

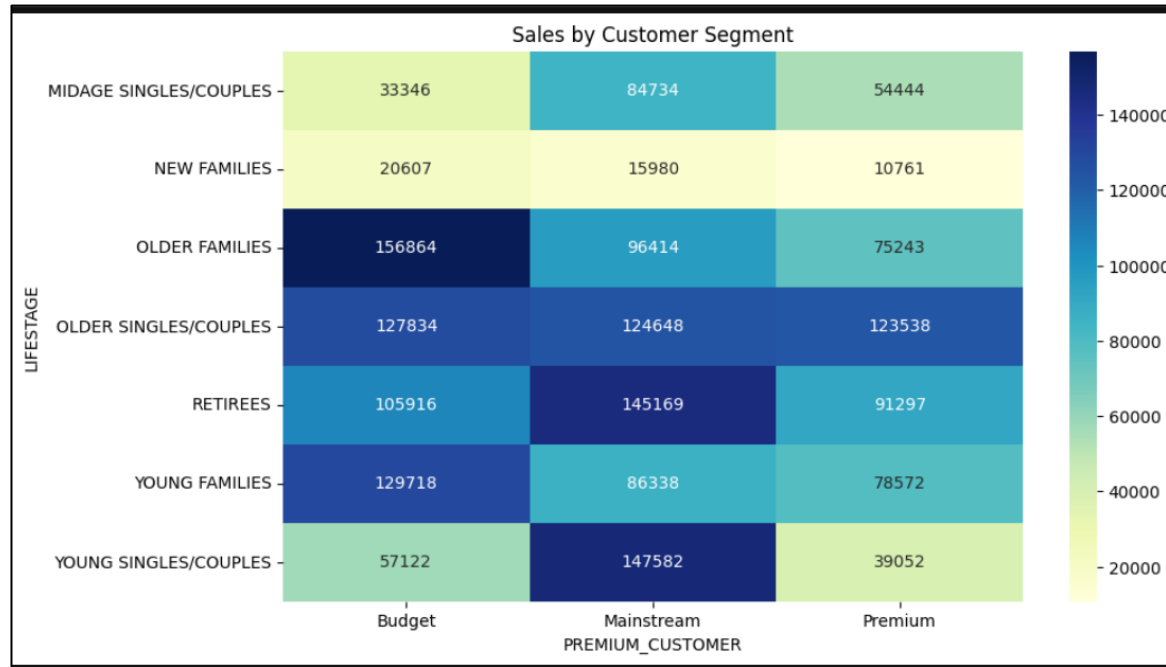

Category Overview

Key Insights

Older Families generated the highest total chip sales, followed by Young Families. Mainstream customers consistently contributed higher sales than Premium customers across several life stages. Family-oriented households remain the most valuable customer segment for the chips category.

Customer Segmentation (Affluence & Life Stage)

Recommendation

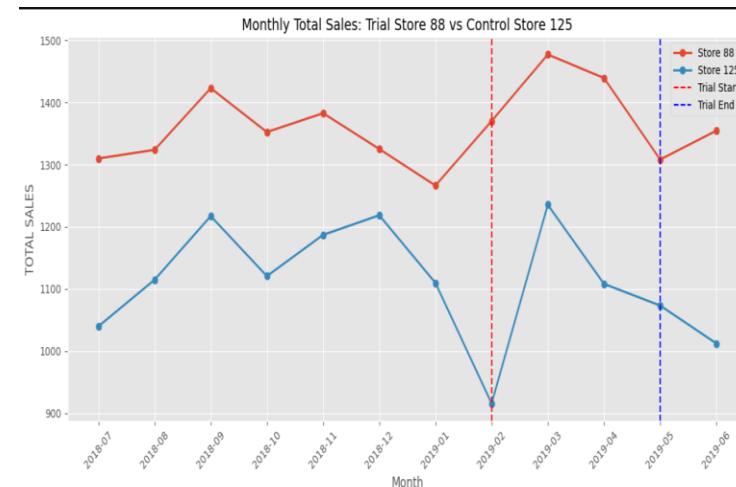

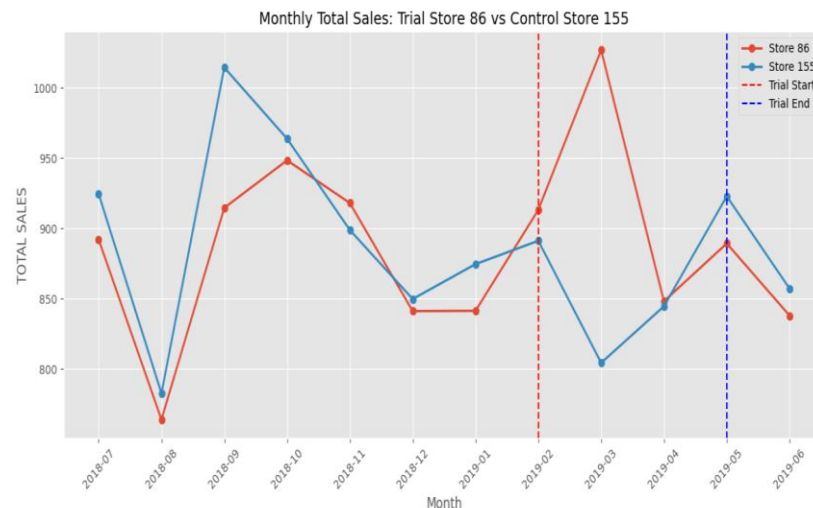

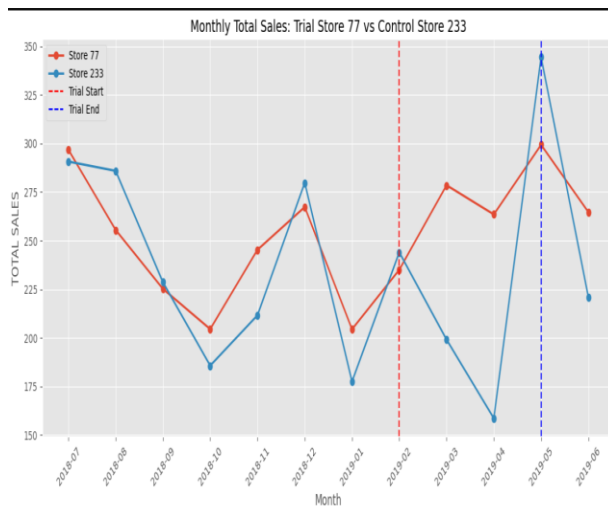

Target promotions toward:

- Mainstream Young Singles/Couples
- Older Families
- Young Families
- These customer groups represent the greatest opportunity for increasing category sales.

Customer Segment Insights Key Findings

- Mainstream Young Singles/Couples were the highest spending customer segment.
- Budget Older Families generated the highest sales among family households.
- Older Families and Young Families together contributed a significant proportion of total chip sales.
- Premium customers generally contributed lower sales than Mainstream customers.

Trial Store Performance

Key Findings

Store 77

Sales increased during the trial period compared with the control store.
Customer counts also increased, indicating improved store performance.

Store 86

Demonstrated positive sales growth during the trial period.
Higher customer counts suggest increased store traffic.

Store 88

Showed only modest improvement relative to the control store.
Additional monitoring is recommended before making rollout decisions.

02

Trial store performance

Recommendations & Next Steps

Customer Strategy

Focus promotional campaigns on **Older Families**, **Young Families**, and **Mainstream Young Singles/Couples**. These customer groups generated the highest category sales and offer the greatest growth potential.

Product Strategy

Increase shelf visibility for **Kettle**, **Smiths**, and **Doritos**, the highest-performing brands. Maintain strong inventory levels for the popular **175g** and **150g** pack sizes.

Store Strategy

Continue monitoring Trial Stores **77** and **86**, which demonstrated positive sales performance during the trial period. Conduct additional evaluation of **Store 88** before expanding the new store layout to other locations.

Future Work

Monitor long-term sales performance to confirm sustained improvements.
Evaluate seasonal purchasing patterns and promotional impacts.
Continue using data-driven analysis to optimize category performance.

Call out of the performance in the trial store, determining if it was successful
